I (parent/ guardian/ student), understand that ISF International School Frankfurt Rhein-Main Frankfurt (The School) will be using the Microsoft Office 365 groupware platform Teams for Education (hereinafter “Teams”) in order to provide collaboration capabilities for teachers and students, to communicate and work in groups, to share school-related information via a common space as far as necessary and possible regardless of whether they are together or apart.

Teams is a secure cloud-based service by Microsoft that provides remote and dispersed teams with the ability to work together and share information via a common space. Teams combines persistent one-on-one chat, team chat, document collaboration, video meetings, file storage, and application integration. Teams is made up of channels and will serve as digital classrooms.

Digital class books will be shared in Teams. Digital learning material will be provided, and a student personal user account and notebook will be created in order to continue the use of the educational services of ISF. There will be no automated decision making; nevertheless, personal accounts will be created for teaching, classwork, and homework purposes in order to replace the usual school services as far as possible.
